

HOME SAFETY

Kidde leads the way in providing solutions that protect people and property from the effects of fire and its related hazards by offering cutting-edge fire safety technology in its smoke alarms, carbon monoxide alarms, fire extinguishers and other life-safety products.

A properly installed and maintained smoke alarm in the home is one of the best and least expensive ways to provide an early warning when a fire begins. Smoke alarms save lives, prevent injuries and minimize property damage by alerting residents early to a fire hazard.

All of Kidde Safety's products have been tested and approved by third party agencies to the latest American, European and International Standards. Kidde life safety products are renowned for quality, effectiveness and durability, backed by Kidde's dealers' support

No company works harder to help you sleep easier. There's nothing more important than knowing that the people you care about are as safe as possible. Kidde gets it – and understand that protecting a home and the family inside of it means so much more than fire safety technology. Kidde stand behind their products with industry-leading warranties, product support, education and replacement assistance. It's everything you need for you and your family to rest easy – in a safe, secure house, of course.

Anadal Technologies Ltd carries a wide range of Kidde alarms that include Battery Operated Carbon Monoxide Alarms, Interconnect Mains Operated Heat Alarms with Battery Backup, Interconnect and Battery Operated Ionization, Photoelectric and Dual Sensor Smoke Alarms, Combination and Worry-Free Alarms and Replacement Batteries

CARBON MONOXIDE ALARMS

Kidde 7DCO Carbon Monoxide Alarm

The Kidde 7DCO Carbon Monoxide Alarm is a great carbon monoxide detector that aids in protecting your family from the dangers of carbon monoxide. Carbon monoxide is colorless and odorless making it impossible to detect without a carbon monoxide detector. The Kidde 7DCO Carbon Monoxide Alarm uses sophisticated components to detect carbon monoxide in the air.

Kidde 7CO Carbon Monoxide Alarm Detector 10-Year Warranty (Latest Design)

The New Kidde 7CO alarm protects against the dangers of deadly carbon monoxide levels in the home and provides continuous monitoring of CO levels. **It lasts 40% Longer Than Most Alarms!!!** The Kidde 7CO is one of Kidde's new 10 Year Carbon Monoxide Detectors. Most detectors only last 5 to 7 years so this is a marked improvement and a sign of reliability. These alarms benefit from a small, sleek design that is suitable for all living areas and have a 10-year sensor life.

KIDDE HEAT ALARMS

Kidde HD135F 120VAC Direct Wire-In with 230VAC Adaptor and 9V Battery Back Up Heat Detector

The Kidde HD135F is a 120VAC Wire-In Heat Alarm that responds to temperature rather than smoke. The alarm will sound if temperatures rise to about 135°F. The Kidde HD135F interconnects with up to 24 devices (of which 18 can be initiating) including smoke, CO and heat alarms. This unit includes a 5-year limited warranty and is UL Listed.

The Kidde HD135F 120VAC wire-in heat alarm gives you and your family an early warning to dangerous temperatures of 135°F or more. **(It comes with a 230VAC Step Down adaptor.)**

Kidde Firex KF3 Mains Heat Alarm

As the world's largest manufacturer of domestic fire safety products, Kidde have been safeguarding people and property from fire and related hazards for nearly a century. The KF3 can be used in humid or dusty environments where optical and ionization smoke alarms are unsuitable, e.g. kitchens, loft spaces, and garages. It is not triggered by cooking steam or fumes, thus avoiding 'burnt toast' nuisance alarms.

KIDDE SMOKE ALARMS

Kidde i9040 Ionization Sensor Battery Powered Smoke Alarm

The Fire Sentry i9040 smoke alarm is a battery operated smoke alarm that utilizes ionization sensing technology. The four (4) inch unit is smaller in diameter giving it a discreet design with the same quality you would expect in a Kidde manufactured product. The i9040 is powered by a 9V battery, providing continuous protection, even during power outages. This easy to install unit includes a test button to verify the detection electronics are working as intended.

Kidde P9050 Battery Operated Photoelectric Smoke Alarm with Safety Light

The Kidde P9050 is a battery operated smoke alarm, equipped with a photoelectric sensor, designed to alert you and your family to the dangers of smoke and fire. The unit is UL Listed and offers a 5-year limited warranty.

Kidde PI9010 Dual Sensor - Ionization and Photoelectric, Battery Operated Smoke Alarm

The Kidde PI9010 is a 9V battery powered smoke alarm. This smoke alarm functions as a dual sensor, single unit smoke alarm and features Hush[®], allowing you to quickly silence nuisance alarms. The PI9010 is easy to install, no wiring is required. This smoke alarm combines both photoelectric and ionization sensors.

Ionization sensing alarms may detect invisible fire particles (associated with flaming fires) sooner than photoelectric alarms. Photoelectric sensing alarms may detect visible particles (associated with smoldering fires) sooner than ionization alarms. Kidde strongly recommends installing both the ionization and photoelectric detector/alarms for maximum protection.

Kidde Combination & Worry Free Alarms

Combination alarms offer protection from two deadly threats in one unit. Combo alarms can save space, and you'll only need to change and test batteries in one device rather than two. The alarms are powered by sealed, long-life lithium batteries for 10 years.

REPLACEMENT BATTERIES

The following batteries are recommended for use in replacing dead batteries for Kidde home safety heat and smoke alarms.

Duracell MN1604 9Volts Alkaline Battery

These Duracell Coppertop (MN1604) 9 volt alkaline batteries are typically used in smoke detectors, carbon monoxide alarms, alarm clocks, and much more. These high quality Made-in-USA 9 volt alkaline batteries are designed for long-lasting performance in all device applications and they work well in temperature extremes from -30C to 55C.

Energizer 522 9Volts Alkaline Battery

The Energizer Industrial 9 Volt battery is a strong, long-lasting alkaline battery. The Energizer Industrial 9 Volt battery contain the long lasting power found in the Energizer Max alkaline with a design and packaging for businesses that use batteries in their operations. Outstanding performance and reliability combined with a great price makes the Energizer 9 Volt battery a great buy and 100% guaranteed.
